

## Dog's Got A Bone

The Beta Band

Dog's got a bone, all of his own  
Wednesday morning, middle of the road  
Can't help this feeling, of feeling so alone  
Gotta go home now, dog's got a bone now

Listen you will see, coming on in to me  
Listen you will see, coming on in to me  
Listen you will see that we are  
Listen you will see that we are climbing  
Wish you were here, tied to the pier  
Words disappear, every time you call me  
So won't you come home now  
If you're feeling so alone now  
Dog's got a bone, all of his own now

Listen you will see, coming on in to me  
Listen you will see, coming on in to me  
Listen you will see that we are  
Listen you will see that we are climbing  
Listen you will see, coming on in to me  
Listen you will see, coming on in to me  
Listen you will see that we are  
Listen you will see that we are climbing  
...Yeh, do-do-do-do...  
Falling on your face with a little white
