

Make Glad

The Black Crowes

Ballad and dagger, amazing grace
Sons of rock bottom, take your rightful place
Gold tooth and top hat with an ace up your sleeve
Show me that pistol so I can believe

Make glad
Find the beauty in the broken
Make glad
May your heart always be open

Make glad
Keep an eye out for your brother
Make glad
I will see you in the other, oh yeah

Turpentine babies with one foot in the south
Turned out the turnkey for running his mouth
"Jump", said the sheriff, "Get up out of that hole
Get in line and do what you're told"

Make glad
Find the beauty in the broken
Make glad
May your heart always be open

Make glad
Keep an eye out for your brother
Make glad
I will see you in the other

Make glad
Find the beauty in the broken
Make glad
May your heart always be open

Make glad
Keep an eye out for your brother
Make glad
I will see you in the other

Make glad
Find the beauty in the broken
Make glad
May your heart always be open

Make glad
Keep an eye out for your brother
Make glad
I will see you in the other

Make glad
Keep an eye out for your brother
Make glad
I will see you in the other

Make glad
Keep an eye out for your brother

Make glad
