

# Tornado

The Black Crowes

Sit down by the window and watch the tornado  
We'll wait for the sheriff to bring some dirty water by  
Help yourself out to some of my disaster  
Its movin' faster  
Than the last time I was on speed  
Don't you know what I mean  
Cause it's ways and means and your ways are mean  
By definition I could fill this page up with this boys ambition  
s  
But I don't audition  
Oh yes that's true I could never act for you

Heard you saw some friends of mine last winter  
Then again, I heard you disappeared into ether  
I don't laugh and you smile because  
I'm tired I'm feelin wired oh so weary  
And oh so old Am I being too bold  
Bold enough to ask you if you really love me  
In my shadows and in my breeze  
And just one last thing  
Please let me say  
And that is please,  
Oh please, please stay away, from me
