

Fade Away

The Black Heart Procession

(Oooohhh)
Through this land of tragedy;
I try to find my way;
And in this town of misery;
I search for you;
Now we walk away;
To the last of the days.

(Oooohhh)
And in this world;
There were only memories;

Of how we could get through;
There was just no way to see;
Now we lost our way;
In the land of the day.

(Oooohhh)
And in this life;
How will they remember me;
Will they see the truth;
Will they just lose everything;
Now it fades away;
To the land of the day.
