The Time Is Right

The Blue Van

Anyhow that my love is I'm a fool for every kiss She's the honey, I'm her bee How I lick her is up to me Now the time is right for loving Anything that my love says Turns to poems inside my head She's my honey, I'm the bee How can I make her stick to me? Now the time is right for loving Any perfume that she wears Turns a glance into a stare Is she my bonnie? Am I her beau? She's gotta shine To make me glow Is she humming just for me? Is it magic I cannot see? Now the time is right for loving
