

I am afraid of you now  
Now that you left me  
Nothing to say, not much now  
Now that you left me

Now that you left me  
Now that you left me

Just for how long did you know  
Before you left me?  
Nothing to do, it's up to you  
To use it against me

Use it against me  
Now that you left me

You are ahead of me now  
Because you left me  
Words that I said, all yours now  
Use it against me

You have erased me  
Now that you left me

I'll be gone, I'll be gone  
I'll be gone, I'll be gone  
I'll be gone, I'll be gone  
I'll be gone, I'll be gone
