

# Times Were When

## The Cats

Granddad sitting by the fire, reminiscing of the times when he  
was a boy  
In the good old days, he keeps on saying but everything I heard  
before  
Times were when, times were when, times that won't be back again  
Times were when

Times were when boys look like poor boys and their daddy says,  
"Active like youth should"  
He doesn't understand our generation and in it he can see no good  
Times were when, times were when, times that won't be back again  
Times were when

But when I get to his age, I will talk of all the good times I  
had today  
Times were when he was a young man and he thought and did the same  
things I do today  
Times were when, times were when, times that won't be back again  
Times were when

Times were when times were when, times that won't be back again  
Times were when
