

Anyone Alive

The Chameleons

Bush is back
It's a matter of fact
Bush is back
It's a matter of fact
Spark up a light
Angel it's alright.
Spark up a light.
Angel it's alright.

Oh and you're the light on me
Oh and you're the light on me

And anyone with eyes can see
I am not afraid with you
Anyone with ears to hear
I am not afraid with you
Anyone alive
Can feel the storm clouds gathering

What have you got?
Does it seem like a lot?
What have you got?
Well to some it's a lot
Where do you go?
Well I think I know
Above and beyond the energy flow
Mouth to mouth with the feminine glow

Oh you're the light on me
Yeah pour your light on me.

Anyone with eyes can see
I am not afraid with you.
Anyone with ears to hear
I am not afraid with you
Anyone alive
Can feel the storm clouds gathering in

'Cause anyone with eyes can see
I am not afraid with you
Anyone with ears to hear
I am not afraid with you
Anyone alive can see
I am not afraid of the storm clouds gathering in.

Sing it to the children
I have you.
