

Asleep from Day

The Chemical Brothers

I know just what your mama said
Always misunderstood
Gotta tell you something
I saw it in your eyes

I think I left your back seat
And now it's always good
I fell asleep from day
And all the promises
There's a lot of people
That let their will to say
I've got a lot of friends

And they've got beautiful eyes
That make my heart feel surprised
And you notice it
And that's the truth
That's the truth

Have me to you
I shine along underneath your view
I'll be the one
To let you know when you've come undone
I like the stars in the sky
And watch the moon light go by
I've got a lot of friends

And they've got beautiful eyes
That make my heart feel surprised
And you notice it
And that's the truth
That's the truth
That's the truth
