

Believe

The Chemical Brothers

I needed to believe in something
I need you to believe in something
I needed to believe something
I need you to believe in something

I needed to believe
I needed to believe

I needed to believe in something
I need you to believe in something
I needed to believe something
I need you to believe in something

I needed to believe
I needed to believe

I needed to believe
I needed to believe

I'm moving in between
Can you feel me in between
I'm moving in between
Can you feel me in between

I needed to believe
I needed to believe
