

Bone House

The Dead Weather

I build a house
For your bones
I build a house
I build a home

I wrote a song
Go on and listen
That's all you'll hear
When I go missing

I always get the things I want

I make a nest
For your hair
I lay you down
I lay you there
I build a ship
I sink or sail
Every tooth
And every nail

I always get the things I want

I put your heart
In a vault
That's how I get
The things I want
I lay a road
For your mind
So your mind can
Go go go go

I always get the things I want

I build a house
I build a home
I build a house
For your bones
I build a house
For your bones
I build a house
I build a home
