

Go Get Your Gun

The Dear Hunter

Go get your gun
Get your gun
And lets find out what it does
Shoot, shoot, shoot, shoot, shoot
We haven't won
And if we win
And if the morning light sets in
We've cheated fate again

And to those who die
Please try to understand
That for those who die
We tried the best we can

With our one foot in the grave
While the other one's kickin' its way
Right down to hell

Go get your gun
Get your gun
Imposing penance one by one
You've got a virtue in a vice
It forces fate you're taking lives
With all the history to guide
You've got a passion in those eyes
So aim it straight and true

And to those who'll die
Please try to understand
That for those who die
We've tried the best we can

With our one foot in the grave
While the other one's kickin' its way
Right down to hell

Now,
When this is over
Then,
We'll raise a glass
Straight up to the sun

With our one foot in the grave
While the other one's kickin' its way
Right down to hell

Go get your gun
Get your gun
And lets find out what it does
Shoot, shoot, shoot, shoot, shoot
We haven't won
And if we win
And if the morning light sets in
We've cheated fate again

And to those who die
Please try to understand

That for those who die
We tried the best we can

With our one foot in the grave
While the other one's kickin' its way
Right down to hell
