

# Where Are You Tonight

The Devlins

Time and time again I have tried  
To understand what you need  
But there's only so much to give  
Did you hear that  
Time and time again I have tried  
To understand what you still deny  
I can hear you by my side, but tell me please  
Where are you tonight?

Now you watch the space  
I can see you just look around  
And you've just got to say what you want  
And sometime maybe it'll come around  
You know it's hard to be so close  
And feel you're losing what you need the most  
I can hear you by my side  
Tell me please where are you tonight  
Time and time again I have tried  
To understand what you still deny

I can hear you by my side  
Tell me please where are you tonight  
Tell me did you hear that  
Could you hear it anyway
