

# Burn By Myself

The Dirty Heads

Well the fires been licking its lips at me  
And it's hungry from what I can tell  
Feed it some leaf to make its peace  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by my self

Well it's still burning bright from what I can see  
And I really could use some help  
Will you give it some water to quench this beast  
Don't think I can do it myself  
Cause that fires been licking its lips at me  
And it's hungry from what I can tell  
Feed it some leaf to make its peace  
Don't wanna burn by myself

By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Wanna share it with somebody else

Won't you please, please pass it to me

You know it's been moving so well  
Keep it going strong till all of its gone  
One more to all of our health  
Cause that fires been licking its lips at me  
And it's hungry from what I can tell  
Feed it some leaf to make its peace  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Wanna share it with somebody else

Well the fires been licking its lips at me  
And it's hungry from what I can tell  
Feed it some leaf to make its peace  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Don't wanna burn by myself  
By myself by myself  
Wanna share it with somebody else
