

Alive

The Dirty Youth

See the girl, eyes are wide
So naive, dead inside
Would you cry for her
Would you take her pain away
Would you die for her
Would you brighten up her day

No more regrets, no more regrets
I can't forget

These could be the best days
We're having it all our way
Saying things we must say
To feel so alive
It's brighter than the sunlight
Dancing like it's all right
Celebrating this night
To feel so alive
I feel so alive

I don't know how it feels to be so insecure
That you take out your problems on cocaine and beer
You say to yourself that you're really okay
It's killing me now just to see you this way
Now I think to myself is this fake is this real
All the diamonds and rubies and lies you conceal
Are you lost in yourself, are you feeling confused
Reality sinks and you know you've been used

No more regrets, no more regrets
I can't forget

These could be the best days
We're having it all our way
Saying things we must say
To feel so alive
It's brighter than the sunlight
Dancing like it's all right
Celebrating this night
To feel so alive
I'm feeling so alive

So, I've gotta tell you to, wrap your arms around your soul
Wake up, now
Break out, now
You will lose yourself and everything

No more regrets, no more regrets
I can't forget

These could be the best days
We're having it all our way
Saying things we must say
To feel so alive
It's brighter than the sunlight
Dancing like it's all right
Celebrating this night

To feel so alive
I'm feeling so alive

I'm feeling so alive
I feel so alive
I'm feeling so alive
I feel so alive
