Alive

The Dirty Youth

See the girl, eyes are wide So naive, dead inside Would you cry for her Would you take her pain away Would you die for her Would you brighten up her day

No more regrets, no more regrets I can't forget

These could be the best days We're having it all our way Saying things we must say To feel so alive Its brighter than the sunlight Dancing like its all right Celebrating this night To feel so alive I feel so alive

I don't know how it feels to be so insecure That you take out your problems on cocaine and beer You say to yourself that your really okay It's killing me now just to see you this way Now I think to myself is this fake is this real All the diamonds and rubies and lies you conceal Are you lost in yourself, are you feeling confused Reality sinks and you know you've been used

No more regrets, no more regrets I can't forget

These could be the best days We're having it all our way Saying things we must say To feel so alive Its brighter than the sunlight Dancing like its all right Celebrating this night To feel so alive I'm feelling so alive

So, I've gotta tell you to, wrap your arms around your soul Wake up, now Break out, now You will lose yourself and everything

No more regrets, no more regrets I can't forget

These could be the best days We're having it all our way Saying things we must say To feel so alive Its brighter than the sunlight Dancing like its all right Celebrating this night To feel so alive I'm feeling so alive

I'm feeling so alive I feel so alive I'm feeling so alive I feel so alive
