Narcissistic Cannibal

The Dirty Youth

Don't wanna be sly and defile you Desecrate my mind and rely on you I just wanna break this crown, but it's hard when I'm so rundow n And you're so cynical, narcissistic cannibal Time to bring myself back from the dead

Sometimes I hate the life I made Everything's wrong everytime Pushing on I can't escape Everything that comes my way It's haunting me, taking its sweet time

Holding on I'm lost in a haze. Fighting life to the end of my days.

Don't wanna be rude but I have to. Nothings good about the hell you put me through I just need to look around, see the life that has come unbound.
