

Speak here on your cue,  
Look into camera five  
Sit a slight askew  
In the soft focus lights  
I wish this were over  
We're in for a long, long haul  
If you won't

Fade away  
Fade away  
Before this'll go to waste

Your word's a backwards prose,  
You have such a candid tongue  
You don't sink like stones,  
Like all the other ones  
Just set the bar so low,  
You don't have so far to fall

Fade away  
Fade away  
Before this'll go to waste

I fear that these words may prove fatal  
Going to lay all my cards on the table  
Just look how far we've come  
And you'll send us ten steps off  
You've got it all so wrong

Why don't you go away?
