When It Dies

The Get Up Kids

As it sharpens when it's shimmering Every cut a song All the inner voices whispering They think I've done it wrong

I've got mind to say Let it go when it dies

As the pressure starts to escalate
Be it fought or found
Lack of patience when I'm desperate
And never make a sound

I've got mind to say
Let it go when it dies
You don't have the faintest

A little magic, little mystery Never did no harm I ain't talking if you're twisting me You could break my arm

I've got mind to say
Let it go when it dies
You don't have the faintest
I've got cruel ways
I can show, let me try
I know how to take it

Better days, bet on these The company that you keep

When did your heart stop beating?

We live, we lie
