

# Patrolling Days

The Hives

Waited far too long  
For this day to dawn  
Marked position with an x and kept floating on  
Now I stretch and yawn  
All impostors gone  
Once again it's time to reap and sow  
I'm a rising tide  
Rollercoaster ride  
We're ch-ch-chuggin right into the fun  
I wont be denied  
So you open wide  
Cause I'm only looking out for you

My patrolling days are over  
And I ain't shot nobody since  
I fought the big cheese out of office  
And showed the hep kids how to dance  
And now we're gonna take a ride on the wiggle and sway  
I got my finger on the trigger and it's time to play  
And with every little step I blow your mind away  
Forever H-P-A!

What now! It's going down!  
From way up top to the down low  
Take a chromosome  
Make it monochrome  
And I'll tell you what I'm gonna do  
Be a rising tide  
Rollercoaster ride  
We're ch-ch-chuggin right into the fun  
I wont be denied  
So you open wide  
Cause I'm only looking out for you

My patrolling days are over  
And I ain't shot nobody since  
I fought the big cheese out of office  
And showed the hep kids how to dance  
And now we're gonna take a ride on the wiggle and sway  
I got my finger on the trigger and it's time to play  
And with every little step I blow your mind away  
Forever H-P-A!

Cause see I rolled in through the back door  
when it was my turn for throne  
I never wanted to stand on your pedestal man  
cause I was born to build my own  
When they say do or die, I said no way no how,  
they said I wouldn't last for long

But I'm still standing in the hurricane's eye and it's dancing to my song  
Again I rolled in round the back door, no I ain't got no common sense  
So you can bitch and whine,  
but you best stand aside cause I'm doing it again  
Well no I won't unwind, I wont be dumped behind,  
I wont be coolly led astray  
So on the dotted line, I slit my thumb and sign yours truly, HPA!

My patrolling days are over  
And I ain't shot nobody since  
I fought the big cheese out of office  
And showed the hep kids how to dance  
And now we're gonna take a ride on the wiggle and sway  
I got my finger on the trigger and it's time to play  
And with every little step I blow your mind away  
Forever H-P-A!
