

## Count in Fives

### The Horrors

Count  
Yeah I count in fives.  
I do it everytime.  
And If another number confronts me  
I will cut you in half.

Irrespective of the subject  
I will make it apply,  
no matter what the object  
I will count in fives,  
just tell me the location  
I will stand outside...

Oh yeah,  
if you give me too many  
I will multiply.  
Force too many into my hand and  
I will not comprehend.

Oh yeah,  
another number confronts me  
and I force it to divide.  
The first time with someone holding my hand. The second, me holding it out.

Tally tally.

Oh yeah,  
  
if you try to deceive me  
I felt it burn in my hand.  
Now watch the numbers run to me as  
I count them in fives
