

# Come Together

The Internet

And I want those eyes  
Only in one side  
Only in the wide  
Girl im in the rush

I can't be sure  
Ah, Anymore  
Today or tommorow  
What we've come to  
What we've come to

They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together

I forget my pride  
Strolling in your blush  
Wanna get so high  
Wanna live my life

I can't be sure  
Ah, Anymore  
Today or tommorow  
What we've come to  
What we've come to

They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together  
They gon' get us to come together

They gon' get us to come together  
They gon' get us to come together

(They gon' get us to come together)  
(They gon' get us to come together)
