## **Partners In Crime**

## The Internet

We can conquer the world Just you and me no one else Tell me if that's cool What chu wanna do Ahh Ohhh

Guns drawn in an all black car
Bustin at all the lames
Who got something to say about us
We can rob this world blind
And maybe next time
They'll think twice
Before they try fuckin with us

Just imagine what it be like be like If you and me ruled everything Would it be (Cool)
Or Would it be cool

Can you imagine what it be like be like If you and me ruled everything Would it be (Cool)
Or Would it be cool

If we would conquer the world Would you be down to roll with me Like partners in crime Til the end of time

Guns drawn in an all black car
Bustin at all the lames
Who got something to say about us
We can rob this world blind
And maybe next time
They'll think twice
Before they try fuckin with us

Just imagine what it be like be like If you and me ruled everything Would it be (Cool)
Or would it be cool

Can you imagine what it be like be like If you and me ruled everything Would it be (Cool)
Or Would it be cool
