

After You Leave Girl

The Jackson 5

Ooh

I can't believe girl that you are gone

After we've been in love so very long

We were very much in love and that's all you're thinking of

Ooh baby now you're leaving me

I had many plans for two, I thought I could depend on you

Ooh, baby I guess we'll never be

Should I let my feelings fade (should I let them fade away)

About our love was a mistake (never meant to fade away)

I can't believe, girl, that you are gone

After we've been in love so very long

You were always so very kind, enjoyed to ease my troubled mind

Ooh baby now you're leaving me

A turn of your head, a smile on your face since you've been gone girl

I hardly know my place

Oh, should I let my feeling fade (should I let them fade away)

About our love was a mistake (never would be this way)

I can't believe that you are gone

After we've been in love so very long

We were very much in love, and that's all I'm thinking of

Ooh, baby, now you're leaving me

I had many plans for two, I thought I could depend on you

Ooh, baby, I guess we'll never be

After you leave, girl, after you're gone

After you leave, girl, oh, after you're gone

Oh, after you leave girl, oh, after you're gone...
