

Little Christmas Tree

The Jackson 5

I watch the snowflakes fall
Against my window pane
And wonder if you
Are watching snowflakes, too.
I take a walk downtown
To where you used to meet me
There's joy everywhere
But all that's waiting there is

Just a little Christmas tree
Looking sort of sad and lonely just like me
No one seems to care
They just went away and left it standing there
All alone on Christmas Eve.

I hear the Christmas bells
The happy people singing
The songs of good cheer
That only brings me tears
I sadly close my eyes
And say a little prayer
You'll be waiting there for me
I look but all I see is

Just a little Christmas tree
Looking sort of sad and lonely just like me
No one seems to care
They just went away and left it standing there
All alone on Christmas Eve.

This is the season of love
But I'm as sad as I can be
Why did you have to leave me
Why, why did you have to leave me

Oh, little Christmas tree
Looking sort of sad and lonely just like me
No one seems to care
They just went away and left it standing there
All alone on Christmas Eve.
