## Lucky Day

## The Jackson 5

Miss luck, she's luck Miss luck, luck luck Miss luck, she's luck Miss luck, luck luck

Miss lucky day You stepped into my life On this lucky day I fell for you on sight Girl, im so amazed Excitement cant describe I find I fell in love before But never felt the feeling more

Im dreaming dreams you may come true Luck has made me a part of you You're in my mind in such a way How can I forget this lucky day

Miss lucky day You're my four-leaf clover girl On this lucky day You rearranged my world From down to up And I know that must be luck But still I keep my fingers crossed And hope this feeling wont be lost

Im dreaming dreams you may come true But luck has made me a part of you Oh, you're in my mind in such a way How can I forget this lucky day

Miss luck, she's luck Miss luck, luck luck Miss luck, she's luck

Miss lucky day You stepped into my life (2x) (I wanted to be as far away from me As the lucky charm you wear on your heart)

Miss lucky day You stepped into my life (2x)
