

## Girl on the Phone

The Jam

Girl on the phone keeps a ringing back  
Her voice is smooth but the tone is flat  
She's telling me this and she's telling me that  
She talks about me and I must agree

With what she says about me  
About how nice I can be  
But it makes no difference  
To my mind

Girl on the phone keeps a ringing back  
She knows all my details she's got my facts  
She tells me my height and she knows my weight  
She knows my age and says she's knows fate

And I must say it's logical  
What foresight she must have  
I've got to meet her  
Whenever I get time

Says she knows everything about me  
Every word I've ever said, every book I've ever read  
She told me that we met along time ago  
I can't think when but she should know

Girl on the phone keeps a ringing back  
Knows where I get my shirts and where I get my pants  
Where I get my trousers, where I get socks  
My leg measurements and the size of my cock

And I must say it's unnerving  
To think that she knows me  
Knows me so well better than anyone  
Better than myself

Says she knows everything about me  
Every record I've listened to, every window that I've looked through  
She told me that we met along time ago  
I can't think when but she should know

Girl on the phone keeps a ringing back  
She's telling me this and she's telling me that  
Girl on the phone keeps a ringing back  
She's telling me this and she's telling me that  
Girl on the phone keeps a ringing back
