

The Night

The Jam

Travel the night
Thousands of lights
To show us the way
Me and my mates will have a good time
In the amusement arcade
Park the bikes
We're here at last
Pull the birds that wait for
This is it
It's what it's all about
We worked all week for this
Let's go

Go to the clubs
Dance for a while
Have a drink or so
Please ourselves
Do what we want
Tonight is ours to have fun
The night will soon be gone
It goes too fast
Let's not waste time!
No need to worry ourselves now

The night
The night of our week
One night
We remember it well
No one can take it away
No one can deny us of that
The night
One night

Hear the sea
Come tumbling in

Hitting the shore
Feel the night breeze
Beneath the pier
As we try to sleep
It feels so secure
Alone with the sea at our feet
The sea remains but that's all
We had a good time while we were here

Good night
