Fall

The Jesus and Mary Chain

Fall to my bended knees Shoving up till I freeze Falling on down to you Down down down So choked up in the dust Hand held holy lust Dragging me to her cross Fall fall fall So I dragged you down C'mon drag me down So it seems to be So it seems to me That I just can't fail to see Falling on down to you Down down down Everybody's falling on me And I'm as dead as a Christmas tree
