

Rider

The Jesus and Mary Chain

Going on a motorbike, ride it to the beach
Screaming at the sun, out of reach
Come on little honey come take me in the dark
Come on little honey (just take down the spark)
I got a lot of wait
I got a lot of space
I got a lot of time
I look at my hands I got you
I got nothing to lose

On my motorbike dodododododoo dododoo
dodododododoo dododoo
dodododododoo dododoo
dodododododoo dododoo

Here comes now
Here comes now
Here comes now
come now

Here comes take it away
Here comes Talking 'bout something makes you want to feel
Kicking to the end Aw touch me baby
Touch me baby

Ride in to the sun cause you tried to move me
Take a ride on down, run out of road
Take a ride my baby (and remove this) load
Come on baby try to understand
Come on baby let me take your hand
