My baby take me, my baby take me, my baby take me where I've never been
Peculiar to this girl, peculiar to the world, she wants to watch a fella get along
?? (It kept) my pack, I take a bad rap, I can't hear my other way (throw my other weight) around
I take a good nap, I call her up now, I taught that girl see, everything I know, hey
My baby tell me, my baby tell me, my baby girl, an Indiana girl
I got her knocked now, a seein' ?? (fuck) now, I tell her ?? (do date) her here
My folks don't realize, about the little girl, or so we know (don't), just to make her smile
I say we got now, to ?? (up a clog) now, I taught that girl everything I know, hey
My baby spank me, my baby thank a me, my baby hit me, like I've never been
My baby tell me, my baby tell me, my baby girl, an Indiana girl
I say ??(ya frighten) me, don't ever fight me, I taught that girl everything I know
Yeah, everything I know, yeah, everything I know, yeah, everything I know how, huh
Huh, huh, huh, huh, huh, huh, duh, duh
