

Devil Woman

The John Butler Trio

I said hey ho, baby get away from me
'Cause I'm losing my mind, my head
Another man in my bed
So go and run, before I live to regret
What I'm gonna do to you
'Cause I'm just about to lose my mind

Devil woman get the hell away from me
I'm sayin'
Devil woman get the hell away from me
Devil woman get the hell away from me
I'm sayin'
Devil woman, tell me why you're so mean?

Hot, red, flame
Tell me now what's his name
And tell me what he got
What he got that I have not?
I know those plates
Of the truck skiddin' out my gates
So boy, go run and hide
'Cause I'm gonna grab my baseball bat

Devil woman get the hell away from me
I'm sayin'
Devil woman get the hell away from me
Devil woman get the hell away from me
I'm sayin'
Devil woman, got me on my hands and knees

Meeting you was like a lightning bolt
No matter what my friends said
I could see no fault
But now I see you're a snake in a tree
And your poisonous apples are killing me

So hike it up man real high
Ya let every little man go and see those thighs
While you're at it baby show your horns
Wrapped around your head like a crown of thorns

Devil woman get the hell away from me
Devil woman get the hell away from me
I'm sayin'
Devil woman get the hell away from me
I'm sayin'
Devil woman, why you gotta be so mean?

Devil woman get the hell away from me
I'm sayin'
Devil woman get the hell away from me

Devil woman get the hell away from me
I'm sayin'
Devil woman!
