

## Uncle Jonny

The Killers

When everybody else refrained,  
My uncle Jonny did cocaine  
He's convinced himself right in his brain  
That it helps to take away the pain  
Hey Jonny...  
Hey what you say Jonny?

I wanna go out tonight  
Come a little closer to the city lights  
Levitation ain't your only friend  
Levitation coming back again

You feel the burning in your body's core  
It's a yearning that you can't ignore  
And I wanna go out tonight  
So trust the superman and hold on tight  
He's convinced himself right in his brain  
That it helps to take away the pain  
Hey Jonny...  
Hey what you say Jonny?

My appetite ain't got no heart  
I say my appetite ain't got no heart  
Shocking people when you feel that pull  
Shock 'em jump 'em when you know its full  
I feel a burning in my body core  
It's a yearning that you can't ignore  
And I gotta go out tonight  
"Hey Jonny I've got faith in ya man!  
I mean it, its gonna be all right"  
He's convinced himself right in his brain  
That it helps to take away the pain  
Hey Jonny...  
Hey what you say Jonny?

Tell us what's going on  
Feels like everything's wrong  
Hey what you say Jonny?  
If the future is real, Jonny you've got to heal  
Hey what you say Jonny?

When everybody else refrained,  
My uncle Jonny did cocaine
