I'm bored of cheap and cheerful I want expensive sadness Hospital bills, parole Open doors to madness

I want you to be crazy cause you're boring baby when you're straight I want you to be crazy cause you're stupid baby when you're sane

I'm sick of social graces
Show you shark-tipped teeth
Lose your cool in public
Dig that legal meet
Cause love is just a dialogue
You can't survive on ice-cream
You got the same needs as a dog

It's allright (it's allright)
To be mean (to be mean)
It's allright (it's allright)
To be mean (to be mean)

I want you to be crazy cause you're boring baby when you're straight I want you to be crazy cause you're stupid baby when you're sane

It's allright (it's allright)
To be mean (to be mean)
It's allright (it's allright)
To be mean (to be mean)
(2x)

I want you to be crazy cause you're boring baby when you're straight I want you to be crazy cause you're stupid baby when you're sane (2x)
