

Timeless Melody

The La's

The melody always finds me
Whenever the thought reminds me
Breaking a chain inside my head
The melody chord unwinds me
The rhythm of life unties me
Brushing the hands of time away
If you look in your mind
Do you know what you will find
Open your mind...
Even the words they fail me
Oh look what it's doing to me
I never say what I want to say
It's only a word believe me
If only the world could see me
I promise I'd send the word away
If you look with your eyes
Do you know what you will find
Open your mind
