

## Cut It Up

The Lawrence Arms

It seems we're fading kinda fast.  
Like the red brake lights rushing past.  
This is morning, waking up when you're still at the bar  
Lurking around with the queens after dark.  
We've come a long way just to end up lost.  
We've drifted, yeah we've drifted,  
And now we're drifting along, along

Cut it up until the pain goes away

(2x)

Everything on the avenue's a little more grey  
And everyone's wearing just a little decay  
Cut it up, cut it up and hand it over  
I don't wanna remember

I don't wanna remember

Cut it up until the pain goes away

When the ship done sinks  
And the crew done drowns  
What am I gonna do?  
I'm not hanging around  
This cruise is ending  
Please hang on to your stub  
Thank you for coming  
And thanks for the love, thanks for the love

Let's cut it up 'til the pain goes away.
