

I Wish I Was in Love

The Lightning Seeds

I was never one to shout out loud
Or stand out in a crowded crowd of people with their ball point
views
But here I am to bare my soul, lose the past and take control
Of everything that I hold true, and now I wish I was in love

I was never one to make a fuss, even then the two of us
Were tumbling form all we knew
I could say I needed you, but would that give you the reason to

Believe that you could need me too

And now I wish I was in love

Holding on for dear life
This is what it feels like
Coming in from outside
Looking for a life line

And now I wish I was in love
