

New Trend (Demo)

The Living End

Well there's a new trend
Bet you didn't know
wish it was the end
And not the start of the show

Beg, steal and borrow
Everything from the past
There all gonna follow you
But you know it wont last
Know it wont last

You didn't see the early warning
You didn't read the sign
You didn't see the early warning
You didn't read the sign

Always outta time
Always one step outta time

There's a new model
Ready to be used
Don't worry about the bottle
It's the label that you choose

Beg, steal and borrow
Everything from the past
They're all gonna follow you
But you know it wont last
Know it wont last

You didn't see the early warning
You didn't read the sign
You didn't see the early warning
You didn't read the sign
You didn't see the early warning
Gonna get left behind
You didn't see the early warning
You didn't read the sign

Always outta time
Always one step outta time

There's a new trend
Bet you didn't know
Wish it was the end
And not the start of the show

Beg, steal and borrow
Everything from the past
They're all gonna follow you
But you know it wont last
Know it wont last

You didn't see the early warning
You didn't read the sign
You didn't see the early warning
You didn't read the sign

You didn't see the early warning
You didn't read the sign
You didn't see the early warning
Going to get left behind

Always outta time
Always one step outta time
