New Trend (Demo)

The Living End

Well there's a new trend Bet you didn't know wish it was the end And not the start of the show

Beg, steal and borrow Everything from the past There all gonna follow you But you know it wont last Know it wont last

You didn't see the early warning You didn't read the sign You didn't see the early warning You didn't read the sign

Always outta time Always one step outta time

There's a new model
Ready to be used
Don't worry about the bottle
It's the label that you choose

Beg, steal and borrow Everything from the past They're all gonna follow you But you know it wont last Know it wont last

You didn't see the early warning
You didn't read the sign
You didn't see the early warning
You didn't read the sign
You didn't see the early warning
Gonna get left behind
You didn't see the early warning
You didn't read the sign

Always outta time Always one step outta time

There's a new trend
Bet you didn't know
Wish it was the end
And not the start of the show

Beg, steal and borrow Everything from the past They're all gonna follow you But you know it wont last Know it wont last

You didn't see the early warning You didn't read the sign You didn't see the early warning You didn't read the sign You didn't see the early warning You didn't read the sign You didn't see the early warning Going to get left behind

Always outta time Always one step outta time
