

## My Only Friend

The Magnetic Fields

Billie you're a miracle and God knows I need one Sing me something terrible  
that even dawn may come You and me, we don't believe in happy endings Hey,  
Lady Day, can you save my life this time Can you cry so beautifully you  
make my troubles rhyme Hey, Lady Day, can you save my life again My only  
love has gone away Will you be my only friend Billie you're a genius  
enough to be a fool a fool to gamble everything and never know the rules  
Some of us can only live in songs of love and trouble Some of us can only  
live in bubbles...
