## I Should Have Never Started Lovin' You

## The Marshall Tucker Band

There's something in your eyes that remind me Of all the loves I've left behind me Looks on your face yes they tell me That I should have never started loving you

It was true when they said that I was mean and cruel All the loves I've had I've made them out as fools Now the tide has turned and I'm lonely too I should have never started loving you

I should have never started loving you
After all the things that we've been through
I could have spent my whole life with you
I should have never started loving you

You hugged me in a way that I had never felt Sky turned so dark I thought I knew you well I'm so lonely girl wish I could leave this world I should have never started loving you

I should have never started loving you
After all the things that we've been through
I could have spent my whole life with you
I should have never started loving you

It was true when they said that I was mean and cruel All the loves I've had I've made them out as fools Now the tide has turned and I'm lonely too I should have never started loving you

I should have never started loving you
After all the things that we've been through
I could have spent my whole life with you
I should have never started loving you
