

Morning Fog

The Morning Benders

My old friend where have you gone
Hopped on a bus in the morning fog
And I feel your stare when I know nobody's there

Don't be gone too long
I'll stay near the phone
Till I hear your steps
Bringing you back home
Now that I'm alone
I can finally say
The words that wouldn't come
Any other way

Oh my love where have you gone
Drove off your brother in the morning fog
And I feel your touch
It's just enough

Don't be gone too long
And I'll stay near the phone
Till I hear the steps
Bringing you back home
Now that I'm alone
I can finally say
The words that wouldn't come
Any other way
