

## Catch The Next Dream

The Nitty Gritty Dirt Band

Hey baby, it's beginning to feel  
Like we've been spinning our wheels  
Hangin' round this town too long.

Why don't we catch a ride?  
Sail away on the outbound tide?  
It's time that we be movin' on.

Let's catch the next dream outta here  
Close our eyes and disappear  
We'll say so long and we'll be gone  
On the next dream outta here.

We're as free as the night is young  
To go as far as our hearts can run  
Let's set our sights on paradise.

Throw caution to the wind  
And never look back again  
We'll ride our love on through the night.

Let's catch the next dream outta here  
Close our eyes and disappear  
We'll say so long and we'll be gone  
On the next dream outta here.

We'll say so long and we'll be gone  
On the next dream outta here.

On the next dream  
On the next dream  
On the next dream  
On the next dream  
Just close your eyes and we can ride  
Oooh ...

On the next dream  
On the next dream outta here  
We can ride  
Oooh ...
