Catch The Next Dream

The Nitty Gritty Dirt Band

Hey baby, it's beginning to feel Like we've been spinning our wheels Hangin' round this town too long.

Why don't we catch a ride? Sail away on the outbound tide? It's time that we be movin' on.

Let's catch the next dream outta here Close our eyes and disappear We'll say so long and we'll be gone On the next dream outta here.

We're as free as the night is young To go as far as our hearts can run Let's set our sights on paradise.

Throw caution to the wind And never look back again We'll ride our love on through the night.

Let's catch the next dream outta here Close our eyes and disappear We'll say so long and we'll be gone On the next dream outta here.

We'll say so long and we'll be gone On the next dream outta here.

On the next dream On the next dream On the next dream On the next dream Just close your eyes and we can ride Oooh ...

On the next dream On the next dream outta here We can ride Oooh ...
