

This Love Affair

The Outfield

Hold me now and catch as these tears start to fall,
There'll be nothing here without you after all,
You can't face the truth if you decide to stay,
This might hurt you now but please don't walk away

[Chorus]

Endless love affair,
Still lingers there inside my heart,
Yes this love affair continues there inside my heart

Tell me now for there things can't recall
I never understood the meaning of it all

I feel so lonely,
I could fly,
I feel so lonely

Early morning, snow begins to fall,
I remember every moment of it all
