

# Woke Up From A Dream

The Paper Kites

Well there's a stranger that I keep in my room  
And it poses a question of the things that I don't want to do  
But there's a hole at work asleep in the night  
And it raises my glass to all the things that I don't want to deny  
Sleeping in a bed I want to last for more  
And I've been calling in my dreams for other things  
And I don't even know why

Something's happening to me my love  
Like I woke up from a dream only to find  
That I still hadn't woke up

Oh and it's just your sweet love gone  
Oh it's just your sweet love gone  
And I've gotta find another way to go about it now

I'm disillusioned by the cinema view  
And it plays like a song on repeat  
And says it's better than you  
But still it holds me like a grip on my mind  
And I can't shake the feeling to wonder  
Like there's something to find  
But it's creeping in my head  
That I've been feeding a lie  
And either way you make a call  
You've gotta live or you've gotta try

Misdirection always leaves me a mark  
Like I fell in to a crowd all going different ways  
And pulled me apart

Oh and it's just your sweet love gone  
Oh it's just your sweet love gone  
And I've gotta find a different way to go about it  
To keep it around now

Something's happening to me my love  
Like I woke up from a dream only to find  
That I still hadn't woke up - I was asleep  
And all the things that weren't right  
Well they were still going on  
I can't tell you it's right  
When it's wrong

Oh and it's just your sweet love gone  
Oh it's just your sweet love gone, it's gone  
And I've gotta find a different way to go about it  
To keep it around now
