

# Kings

## The Pierces

What strikes fear in the heart of one man  
Might not even move another  
While a stranger gets your hand  
You turn your back upon your brother

And you know  
You know  
You know  
You know

We all want the highest towers  
And the valleys at our feet  
We are counting down the hours  
'Til our life and love will meet

And you know  
You know  
You know  
You know  
You know

It's gonna take some time

If we want to  
We could do what kings do  
I can feel the earth move  
When you speak  
If we fight through  
All the things we once knew  
Everything would change for me and you  
We could do what kings do

You feel unworthy of the throne  
You have forgotten who you are  
We all have the blood of angels  
And we fell from the same star

The heart of a lion and the lips of a child  
One part of you is dying  
And the other running wild

And you know  
You know  
You know  
You know  
You know

It's gonna take some time

If we want to  
We could do what kings do  
I can feel the earth move  
When you speak  
If we fight through  
All the things we once knew  
Everything could change for me and you  
We could do what kings do

We could do what kings do  
We could do what kings do  
We could do what kings do

It's gonna take some time  
It's gonna take some time

If we want to  
We could do what kings do  
I can feel the earth move  
When you speak  
If we fight through  
All the things we once knew  
Everything could change for me and you

If we want to  
We could do what kings do  
I can feel the earth move  
When you speak  
If we fight through  
All the things we once knew  
Everything could change for me and you  
We could do what kings do  
We could do what kings do  
We could do what kings do  
We could do what kings do
