## The Power Of

## The Pierces

And it was the final straw
Though I never knew just what he saw
Never underestimate
The power of...
Never underestimate
The power of...

He could bring me to my knees
Though I never saw just what he sees
I was callin' out for him
He never turned
I was callin' out for him
I never learned

Never... Ever...

Never underestimate
The power of...

Never... Ever...

Never underestimate
The power of...

Saw you walking down the street
Those Velcro sneakers on your feet
You were walking faster than
I could run
I was walking in the shade
And you, the sun

Now we can watch it fall Cause they built it up to tall Now I'm sinking lower than All my tears Sinking lower than All your fears

Never... Ever...
Never underestimate
The power of...
Never... Ever...
Never underestimate
The power of...

Mmmm... Mmmm...

Boy you've got a lot to learn Wait until it is my turn And, you stand ever

Never... Ever...
Never underestimate
The power of...
Never... Ever...
Never underestimate
The power of...
Never underestimate
The power of...
Never underestimate

The power of...
