

Fall Apart With Me

The Posies

Oooh, met you in the summer
In the summer wave
Oooh, but little have you come-a
Why'd you come my way

Let's make a plan that lets us both win
And wear a shady grin
Let's stay up late and let it all in
And watch how the others get lost

Fall apart with me
I'll fall apart with you
Fall apart with me
I'll fall apart with you

You hypnotized me through your skin
It's where I wanna begin
You think like I do and that scares me

Oooh, waiting for the winter
Just to go away
Oooh, a dagger or a splinter
Was the price we pay

To fall apart with me
I'll fall apart with you
Fall apart with me
I'll fall apart with you

Oooh, waited for the summer
But it never came
Oooh, waited to discover
What's your summer name?

Fall apart with me
I'll fall apart with you
Fall apart with me
I'll fall apart with you
Fall apart with me
I'll fall apart with you
Fall apart with me
I'll fall apart with you
