

# The Doodle Song

The Proclaimers

Doodle-oo-do...

Every new day she's a shining sun,  
Where the waters flow where the rivers run  
Every new road that I walk along,  
I can see your face and tries it really strong

But all I do know is I love you  
And I want you to be happy  
All I know is I love you true  
And I want you to be happy

Every new smile that I see so wide  
keeps reminding me of a new-born child  
And every new room that I come into,  
I can see your face, baby no mistake

But all I do know is I love you  
And I want you to be happy  
All I know is I love you true  
And I want you to be happy

Doodle-oo-do...

Every new moon I see that's shining up above,  
Makes me think of you, you are the one I love  
Every new star burning in the skies,  
Gonna fill my need make me testify

But all I do know is I love you  
And I want you to be happy  
All I know is I love you true  
And I want you to be happy

Doodle-oo-do...
